# T-ALL 2020:

Omics, biology and therapy

March 20-22, 2020

Utrecht, the Netherlands

**Venue:**  
**Princess Máxima Center in Utrecht, the Netherlands**

Following successful meetings organized in 2010 (Mandelieu, France), 2013 (Lisbon, Portugal) and 2017 (Leuven, Belgium), we now announce **the 4th International T-cell leukemia/lymphoma conference.**

This conference will cover molecular and cellular pathogenic mechanisms that result in T-cell acute lymphoblastic leukemia (T-ALL) or T-cell lymphomas. In-depth insights in these processes can be exploited for the development of novel targeted and immunotherapy-based treatment strategies.

**Keynote speakers:**

**Iannis Aifantis**

(New York University, NY, USA)

**Ellen Rothenberg**

(Caltech, Pasadena, USA)

**Organizing team:** Jan Cools (Leuven, Belgium), Adolfo Ferrando (NY, USA), Kim De Keersmaecker (Leuven, Belgium), Jules Meijerink (Utrecht, Netherlands), Jean Soulier (Paris, France) and Pieter van Vlierberghe (Gent, Belgium)

More information will be released on the T-ALL 2020 conference website during June/July 2019. Please check the Princess Máxima Center Website at: [www.prinsesmaximacentrum.nl](http://www.prinsesmaximacentrum.nl)
